

# Sewer Connection/Installation Fee

Clean Water Services (for both Washington and Clackamas Counties)

## **Sewer CONNECTION Fee:**

1. Complete a Fixture Unit Rating Worksheet for the project to get the "Total Rating"
2. Divide the "Total Rating" by 16 to get the EDU

$$\text{Total Rating}/16=\text{EDU}$$

3. Multiply the EDU by the current sewer connection fee to determine the connection fee.  
(see CWS Fee Schedule Appendix A for current sewer connection fee rate)

## **Sewer INSTALLATION Fee:**

The sewer installation fee is calculated as follows:

- Residential = \$35 flat fee
- Industrial = \$75 flat fee
- Commercial = \$45 flat fee
- Apartments = Charged \$3 per unit with a minimum of \$35 per building and/or connection

## **Lake Oswego**

The sewer rates are calculated by the water meter size.
