

Flextangles

Items Needed:

[Template](#)

Cardstock (You can substitute with paper but it won't last long)

Scissors

Glue

Colored pencils, markers, crayons, etc.

Instructions:

- Print out template
(<https://cdn.babbledabbledo.com/wp-content/uploads/2015/03/Flextangles-Template-BABBLE-DABBLE-DO.pdf>) on cardstock
- Decorate the paper trying to create patterns across each row
- Cut around template
- Fold vertical dotted lines inwards
- Fold diagonal lines outwards
- Put glue on the upper sections labeled glue and bring the dots on the opposite side to nestle in valley between the two glue sections
- Repeat this step two more times. You should have a tube-like shape at this point
- Once the glue has dried, put glue on the end tabs and insert these into the hole on the opposite end of the tube
- Press and let completely dry
- Rotate the model by gently pushing on the middle points until they begin to fold outward
