

Spy Glasses

Items Needed:

Piece of cardboard

Pencil

Craft Knife

Red cellophane (wrapping paper, book cover, treat bag, anything that is see through flexible and red)

Scissors

Glue

Piece of paper

Blue crayon

Red pen

Yellow Highlighter

Instructions:

Glasses:

- Draw the shape of glasses on the cardboard with a pencil. This can be done using an actual pair of glasses, with a downloadable template or by hand.
- Cut out glasses being sure to keep the "lenses" when you are done.
- Score the area where the arms of the glasses meet the main body of the glasses and bend back. Be sure not to cut all the way through.
- Using the lenses, cut a piece of cellophane that is about $\frac{1}{2}$ inch bigger than the lenses.
- Glue the cellophane over the eye holes on the back of the glasses on both sides.
- Optional: decorate your glasses any way that you want.

Note:

- Use a blue crayon to lightly write your message on a piece of paper.
- Draw across the message with a red pen crossways, up and down, and side to side.
- Use the highlighter to swirl in some color to make the message disappear even more.
- Look through your glasses to see the message and watch the blue pop through all of the other colors.
