

Popsicle Lever Chain Reaction

Items Needed:

Popsicle sticks or craft sticks
Rubber bands
Blocks or some small item equivalent

Instructions:

- Place a popsicle stick on either side of the block
- Wrap a rubber band around both ends of the popsicle sticks with the block in the middle
- Repeat the previous steps but instead of putting a rubber band on one end, squeeze the popsicle sticks and slide in between the popsicle sticks of the first piece you made at a right angle
- Repeat these steps until your desired length
- To set off the chain reaction remove the rubber band on one end of your first piece with rubber bands on either side
