### Tualatin Park Advisory Committee January 14, 2020

Juanita Pohl Center  
8513 SW Tualatin Road

---

<b>Members Present:</b>	Dana Paulino, Christen Sacco, Anthony Warren, Brandon Gill
<b>Members Absent:</b>	Beth Dittman, Josh Huffman, Abbi Feltner-Smith
<b>Staff Present:</b>	Ross Hoover, Parks and Recreation Director Rich Mueller, Parks Planning and Development Manager
<b>Public Present:</b>	Bonnie Ibarra Jared Pena

---

#### A. Call to Order

Vice Chair Christen Sacco began the meeting at 6:07 pm without a quorum, and called the meeting to order at 6:35 with a quorum.

#### B. Approval of Minutes

A correction to the spelling of Ethan Bennett's name was made to the December 10, 2019 minutes. The minutes of the November 19, 2019 and corrected December 10, 2019 meetings were approved on a motion by Anthony Warren, and second by Brandon Gill.

#### C. Announcements

1. Chair  
None
2. Staff  
Ross Hoover shared a draft of a social equity tool to help prioritize projects to include diversity and inclusion. Ross also reviewed the Tualatin Arts Advisory Committee projects for the upcoming year.
3. Public  
High school students Bonnie and Jared introduced themselves and explained attending a public meeting is a course requirement.

#### D. Old Business

1. Park Funding Options  
Ross Hoover discussed the polling for bond funding that was in process with the results advancing to Council on January 27. The City Council will decide, based on the polling

## Tualatin Parks Advisory Committee Meeting Minutes – January 14, 2020

data whether to place a parks bond initiative on the May election ballot. Committee members reviewed and discussed the polling questions.

### 2. Veterans Memorial Planning Project

Rich Mueller provided an update on the public involvement that included focus group meetings, stakeholder's advisory committee members and public engagement meeting schedules. The committee reviewed joint advisory committee focus group meeting recap that included the following topics: inclusivity, special definition, multi-use, educational, sensitivity, connectivity and experiential input, ideas and thoughts. Anthony Warren would like the memorial to be about military veterans and not expand it to include first responders. Staff will include this comment in the project input, as it was not noted on the focus group input.

### 3. Comprehensive Plan Text & Map Amendment (master plan)

Ross Hoover and Rich Mueller reported that Christen Sacco attended and spoke in favor of adoption at November 25, 2019 council meeting. The Council adopted the master plan into the City Comprehensive Plan and development code.

## E. New Business

### 1. Committee Representation & Responsibility

Members discussed attending Starry Nights and Holiday Lights community engagement. Committee member's terms expiring and reapplication was mentioned. The officer election will be held at a future meeting due to expiration of some member's term.

### 2. Programs, Services, Operations, & Project Updates

Ross Hoover and Rich Mueller provided an update on Commons splash pad renovation, Atfalati playground replacement, Jengens off leash dog area, park bench standard, Lafky irrigation replacement, Chieftain/Dakota Greenway dog waste station, and programs and events.

## F. Upcoming Dates

Committee members reviewed the upcoming calendar of events and meetings.

## G. Committee Member Communications

Brandon shared about the Audubon Back Yard Habitat Certification program which he received. It includes invasive species removal and enhancing the yard with native plants. Christen shared use of natural pest methods in agriculture by the wine industry in Washington County.

Ross discussed Integrated Pest Management plan and city effort to establish pest management practices and methods to reduce chemical impacts.

## H. Adjournment

Vice Chair Christen Sacco adjourned the meeting at 7:26 pm on a motion from Anthony Warren, and second by Dana Paulino.

# **2020 Parks Improvement Bond Voter Survey**

Survey research conducted January 2020

Research Results	page 4
Demographics	
Reaction to parks improvement bond request	
Reaction to bond facts	
Information sources	
Conclusions & Recommendations	page 29
Appendix	page 35
Questionnaire	

# METHODS

- ▶ Objectives:
  - ✓ Assess likely level of support for potential bond
  - ✓ Identify how best to communicate bond's benefits
- ▶ Telephone interviews with registered voters. 62% of interviews conduct on cell phones
- ▶ List source: Registered voters in City
- ▶ Sample size: 251. Worst-case reliability  $\pm 6.2\%$ .

- ▶ Respondent criteria:
  - ✓ Lives in City of Tualatin
  - ✓ Self-described as voter – 69% vote in every election; 23% in Primary & General; 8% Presidential only
  - ✓ Gender balanced (51%/49% male/female)
- ▶ Interviews conducted January 2-16, 2020

# **RESEARCH RESULTS**

## **Respondent demographics**

# Many voters are relatively new to Tualatin. Average is 21 years; median is 15 years

*Q: How long have you lived in the City of Tualatin?*

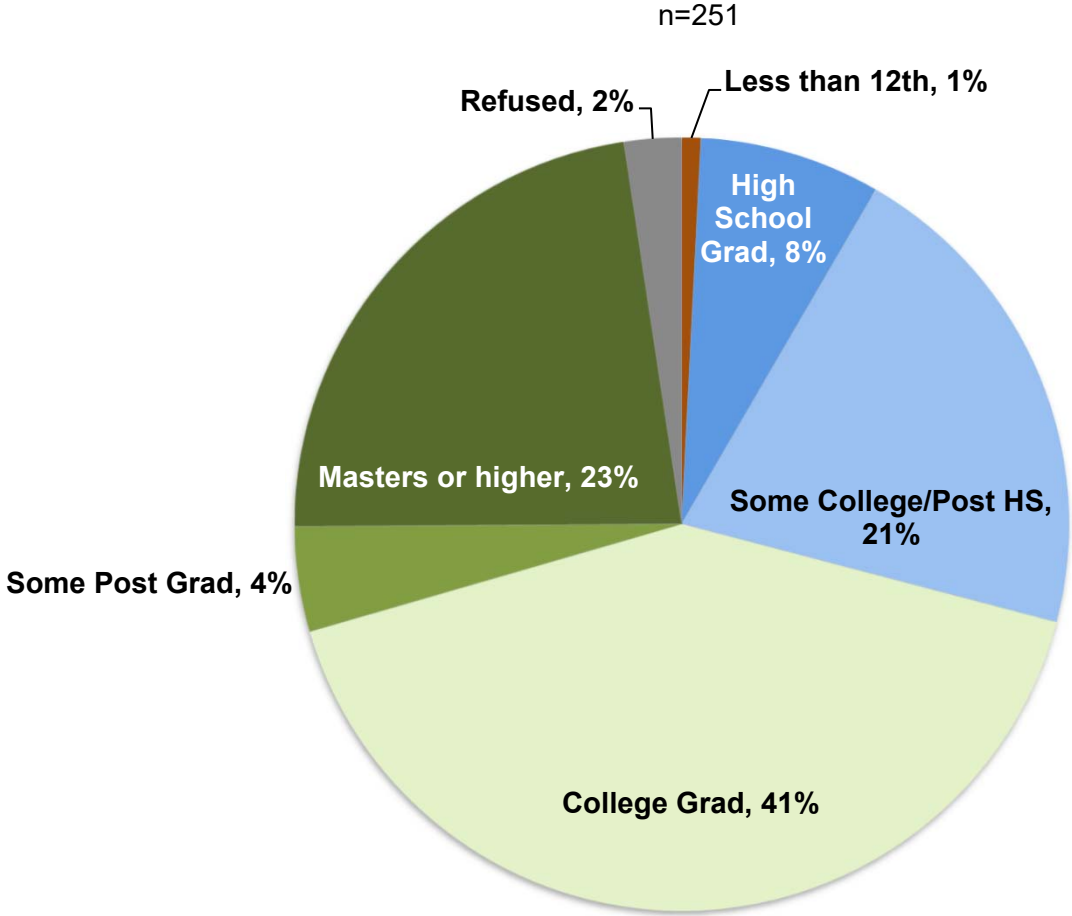

As expected, voters are also older.  
Both average & median is 55 years

*Q: What is your age, please?*

# Voters are well-educated — most have at least some post-secondary education

*Q: What is the last year of education you had the opportunity to complete?*

Other demographics: About half have a dog, a third children at home & 8 in 10 are homeowners

- ▶ Homeownership: 81% own home
- ▶ Children under 18: 34% have children in home
- ▶ Dog ownership: 45% have a dog

# Half of voters indicate household visits to a City park at least every couple of weeks

*Q: In the last year, how often has anyone in your household visited a City of Tualatin park or recreation facility?*

# Reaction to bond request

# INITIAL “ASK” WORDING

Now I am going to ask some questions about a parks-improvement bond the City of Tualatin is considering placing on the ballot this year. The \$30 million, 20-year bond would fund city-wide improvements to Tualatin’s parks, playing fields, community trails, and river-access.

A “yes” vote would result in a property tax rate of 40¢ per thousand of assessed value, *not market value*. For property assessed at \$250,000, the cost would be \$100 per year.

If the bonds are approved, they will be payable from taxes on property ownership that are not subject to the limits of sections 11 and 11B in Article 11 of the Oregon Constitution.

# THREE VOTING QUESTIONS

- ▶ If the election were held today, would you vote “yes” for the City of Tualatin’s parks improvement bond or “no” against the bond?
- ▶ ***If “don’t know:”*** If you had to make a decision today, would you say you are leaning toward voting *for* or *against* the City of Tualatin’s parks improvement bond?
- ▶ ***If “yes:”*** The bond measure would be on the ballot in May of 2020 at the earliest and other funding measures may be on the ballot. How strong is your support for the City of Tualatin’s parks improvement bond?

*Initial* support by only 53% of voters  
(actual “yes” almost always lower than “initial yes”)

- ▶ Voter segments more likely to initially indicate they would vote “yes:”
  - ✓ **Visited a park at least every couple of weeks in last year.** 65% “yes” if visit regularly compared to 42% “yes” if fewer visits
  - ✓ **Younger voters.** 60% “yes” among voters under 65 compared to 47% “yes” if 65+
  - ✓ **Children in the household.** Of those with a child under 18 at home, 62% “yes”
  - ✓ No difference based on gender, dog ownership, or level of education.

# 3 in 10 are “*very confident*” they will support the bond in May; 3 in 10 are Fence Sitters

**Fence Sitters** are Voters who may support the bond but are not firmly committed to a “yes” vote, so may change mind. Getting information to **Fence Sitters** typically key to success

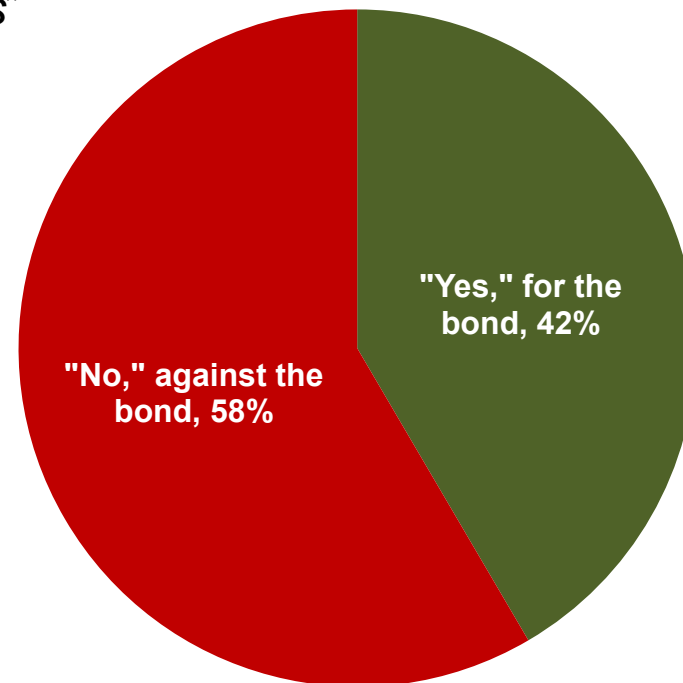

**Fence Sitters = 29%**  
Somewhat confident (19.9%) +  
Leaning “yes” (5.6%) +  
Don’t know (3.6%)

- ▶ Only demographic segment more likely to be “very confident yes” are those who have visited a park at least every couple of weeks in last year:
  - ✓ 68% of “yes voters” who are regular park visitors indicate they are “very confident” of their “yes” vote, compare to just 48% of “yes voters” who are less frequent park visitors.

# Projection indicates 40¢ parks bond will be difficult to pass

## Projection Assumptions:

- √All “*very confident*” voters (32%) will vote “yes”
- √1/3 of Fence Sitters (10%) will vote “yes”

# Reaction to bond facts

*Now I am going to read you a series of factual statements regarding the City of Tualatin's parks improvement bond. Regardless of how you currently believe you will vote, please rate how useful the information seems to you in clarifying whether or not you will vote for the bond. For each statement please tell me whether it is very useful, somewhat useful, not especially useful information regarding the bond.*

(Abbreviated statements shown in charts.  
For complete context, see full text of fact statements.)

## Full Text of Bond Statements

*[The order of statements was randomized during the survey — that is, statements were not read in the same order each time. For reporting purposes, the order shown below matches the order shown on the following graphic and bold emphasis has been added.]*

- ▶ If approved, the bonds would result in a property tax rate of **40¢ per thousand of assessed value**, *not market value*. For property assessed at \$250,000, the cost would be \$100 per year or about \$8 a month.
- ▶ Bond funds would pay for updates and improvements to existing parks **citywide, including adding lighting, renovating restrooms, and improving accessibility** for all residents.
- ▶ Bond funds would be used to expand **Tualatin’s community trails and multi-use paths** and to complete connections to regional trail systems such as the Tualatin River Greenway Trail and the Ice Age Tonquin Trail.
- ▶ If the Bond passes, the City would be eligible for additional **funds from the recently passed Metro Parks Bond**, increasing funding from Metro for park improvements in Tualatin.
- ▶ Bond funds would be used to improve access to natural areas, such as **trail and park access along the Tualatin River**.
- ▶ If the bond passes, equipment and **facility improvements are anticipated at parks throughout the City**, including Tualatin Commons and Community, Atfality, Ibach, and Jurgens Parks.
- ▶ Funds from the bond would be used to **replace or renovate aging infrastructure** including facilities, restrooms, pedestrian bridges, irrigation systems, and boat docks.
- ▶ Bond funds would pay for renovations and updates to **children’s playgrounds**, including new equipment, safety surfaces, and splash-pads or spray areas.
- ▶ Bond funds would allow the City **to improve and expand available soccer and ball fields** throughout the City.
- ▶ Funds from the bond would allow the City to establish additional **dog parks**.
- ▶ Bond funds would help pay for the purchase of park land and community trail access in the **Basalt Creek area**.
- ▶ Based on extensive community input, the City has adopted a **Parks and Recreation Master Plan**. Bond funds would be used to support implementation of this plan.

# Most useful fact relates to cost, followed by basic improvements, trails, & Metro funds

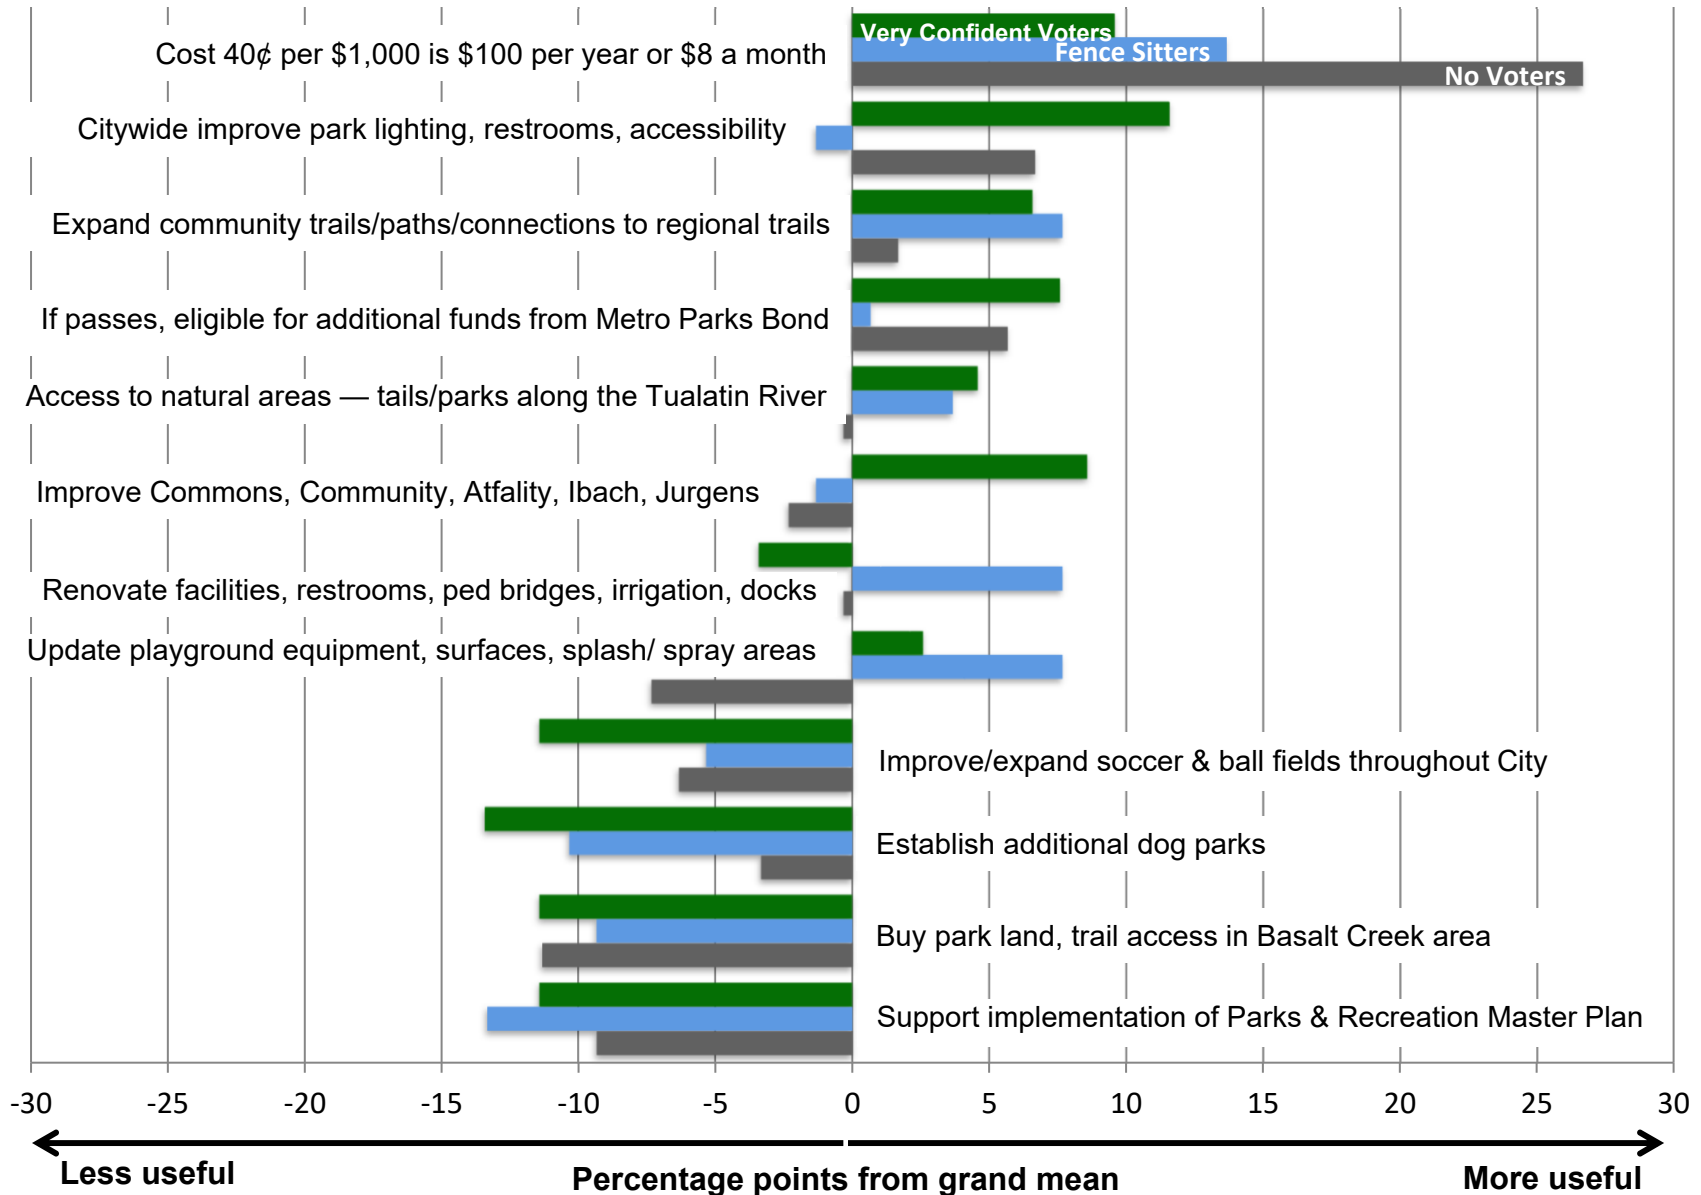

# Normalize data to identify key messages

- ▶ Tendency for individuals or groups to rate all items higher or lower. Grand mean of very useful ratings by segment:
  - ✓ Very Confident (71%), Fence Sitters (54%), No (30%)
- ▶ To address issue, normalize data. 2 steps:
  - ✓ Determine “grand mean” – average of averages – for each segment
  - ✓ Determine how far above or below each statement’s rating is from grand mean
- ▶ Higher above grand mean, more important to communicate.

# Opinions by voter segments

Very confident yes n=80; Fence sitters n=73; No voters n=98

- ▶ Overall, it is rare to see the cost statement so high on the list of “very useful” ratings for all segments
  - ✓ The benefits described do not resonate with enough voters as a good value for the cost anticipated.

- ▶ Not surprisingly, regular park users more likely to rate all statements “very useful”
- ▶ Statement on cost of bond to property taxpayers especially useful to those:
  - ✓ With children under 18 (80% very useful)
  - ✓ Under 65 (75%)
  - ✓ With a college degree (73%)
- ▶ Those with children more interested in playgrounds (65% very important) than soccer & ball fields (45%).

# Statements improve “yes” voter confidence, change opinion of some “unsure” or “no” voters

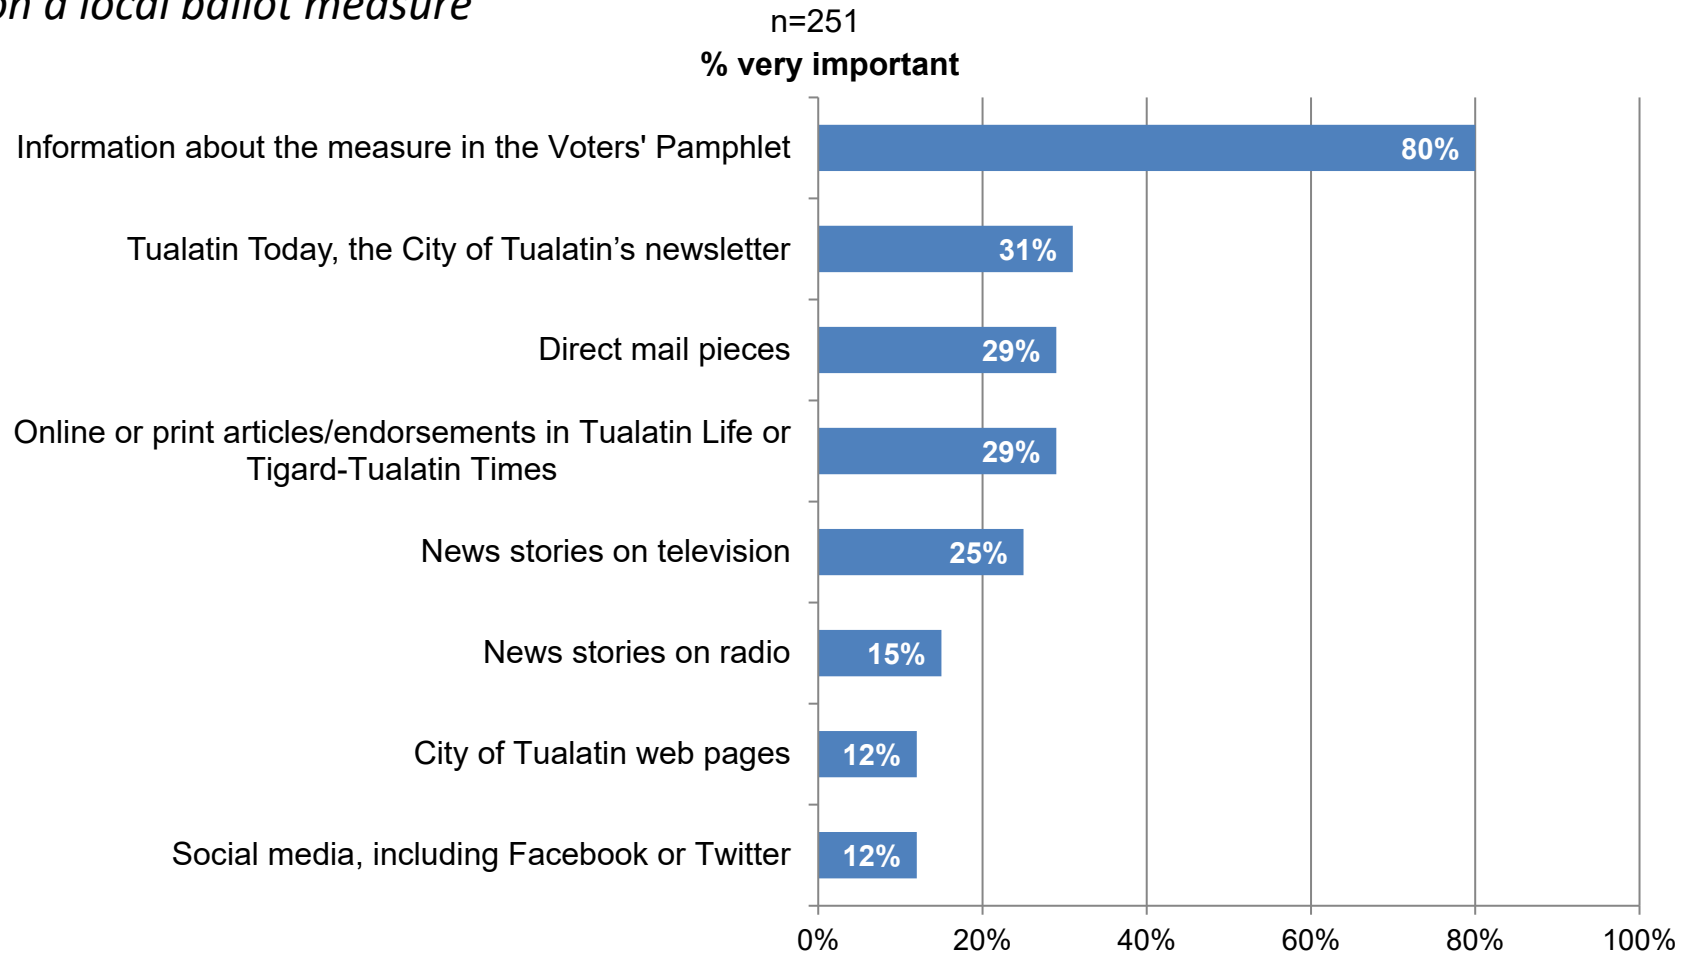

## After bond statements read...

- ▶ Some who initially said “no” or “unsure” change to saying “yes” — a theoretic 8-point swing toward initial “yes” overall (from 53% to 61%)
- ▶ Percentage of respondents who are “very confident” of “yes” vote rises from 32% to 43%
- ▶ Real-world change likely to be less because not all voters will receive all information.

# Information sources

# Voters' Pamphlet key information source

*Q: Now I want you to think specifically about how you learn about local elections. I am going to read you a list of possible sources of information. Please tell me if each source of information is very, somewhat, or not important when you are deciding how to vote on a local ballot measure*

# **CONCLUSIONS & RECOMMENDATIONS**

▶ A 40¢ per thousand Parks Improvement Bond will be difficult to pass

- ✓ Only a third of voters are very confident they would support the Bond
- ✓ Older voters, who are most likely to vote, are less supportive
- ✓ Not enough voters perceive a benefit worth the cost. All segments place cost statement at or near top of their “very useful” ratings — not typical of better-supported money measures.

- ▶ Moving forward, remember that voters make decisions about supporting money measures based on 3 factors:
  - ✓ Perceived community benefit of intended purpose
  - ✓ Trust in funded organization to use tax dollars wisely
  - ✓ Degree of personal economic optimism.

- ▶ Before referring money measure to voters, revise based on research & other analysis to focus community benefit, adjust cost
  - ✓ Dog parks, sports fields, land acquisition, not valued as much as community trails, multi-use paths, lighting, & other tested improvements
  - ✓ The combination of added clarity in benefit & lower cost may offer better chance of passage
  - ✓ Plan on spending up to a year prior to the vote communicating vision/benefit to voters.

- ▶ In putting together a communications plan, remember that passage of any money measure is more likely if efforts include:
  - ✓ Clear description of key benefits on ballot title & explanatory statement in Voters' Pamphlet
  - ✓ Presentations on facts about the measure to all possible local forums, including service clubs, homeowner associations, senior services
  - ✓ Proactive meetings with local media about the money measure
  - ✓ Mailings describing useful facts about the proposal to all voters.

## ATTITUDES TOWARD BOND

Now I am going to ask some questions about a parks improvement bond the City of Tualatin is considering placing on the ballot this year. The \$30 million, 20-year bond would fund city-wide improvements to Tualatin’s parks, playing fields, community trails, and river-access.

A “yes” vote would result in a property tax rate of 40¢ per thousand of assessed value, *not market value*. For property assessed at \$250,000, the cost would be \$100 per year.

If the bonds are approved, they will be payable from taxes on property ownership that are not subject to the limits of sections 11 and 11B in Article 11 of the Oregon Constitution.

**[Only if respondent asks for meaning of the preceding sentence:** What I can tell you is that the statement is required to appear on every bond measure placed on a ballot in Oregon, so that language would appear with the ballot description.]
