

## DRIVEWAY APPROACH AND CLOSURE PERMIT

A driveway approach permit must be obtained prior to constructing, relocating, reconstructing, enlarging or altering a driveway approach as specified in Tualatin Development Code Chapter 75. Driveway approach permits are a Type II land use procedure that is used when the standards and criteria require limited discretion and interpretation. Type II decisions are decided by staff and require public notice with an opportunity for appeal to the City Council.

A driveway approach permit is not required for the construction or alteration of a driveway approach that requires a state highway access permit, or that is part of the construction of a publicly or privately engineered public improvement project.

Driveway approach and closure permits also encompass a Public Facilities Review led by the Engineering Division, to evaluate transportation and access management; sewer, water, and stormwater; water quality and erosion control; and protection of environmentally sensitive areas.

Both the Engineering and Planning Divisions coordinate with other City departments and outside agencies, such as Tualatin Valley Fire and Rescue and Clean Water Services, to ensure compliance with all applicable development standards.

### **PRIOR TO APPLICATION SUBMITTAL**

- Attend a Pre-Application Meeting (TDC 32.110)
- Notice and host a Neighborhood/Developer Meeting (TDC 32.120)

Following submittal of the Partition/Subdivision application, the applicant must post a sign on the subject property (TDC 32.150) to provide notice of the pending land use application. The applicant will be required to provide an affidavit of posting demonstrating the sign was posted prior to issuance of the decision.

*Note: Notice of land use application sign to be posted once the application has been deemed complete.*
