## NEIGHBORHOOD MEETING NOTIFICATION

### Notice of Planned Facility in Your Neighborhood

**Project Location:**

- Existing Wireless Facility located at 8930 SW Norwood Road (Water Tank site)

**Proposal:** Install an AT&T Wireless Facility that includes extending the existing 110-foot monopole 14 feet (124' total height), antennas, radios, and other ancillary aerial equipment. There will be a backup generator for emergency use only. The ground equipment will be contained within a 10'x15' secured area within the existing wireless compound.

**Purpose:** The facility will improve wireless coverage and capacity for AT&T customers within the area, along with public safety agencies/first responders, as part of the Nationwide Public Safety Broadband Network ("FirstNet").

At the meeting, we will provide an overview of the proposal, respond to questions, and record comments. Sign in sheets, meeting notes, and comments received will be transmitted to those in attendance and the City of Cornelius Community Development Department as part of their review of this proposal.

For more information, or if you are unable to attend the meeting and would like to provide written comments, please contact:

# Quality Wireless Coverage is Critical in the City of Tualatin

- 92% of Americans own a smartphone. <sup>1</sup>
- Over 72% of American households rely exclusively on wireless communications in their homes. <sup>2</sup>
- Public Safety: 80% of all 911 calls originate from cell phones. <sup>3</sup>
- FirstNet - AT&T is building out the Nationwide Public Safety Broadband Network, under the FirstNet Authority.
- Economic Development: 98% of small businesses rely on wireless technology. <sup>4</sup>
- Residents use smartphones, tablets, laptops at home—all drive the need for reliable and expanded connectivity
- 5G technology will help us connect more devices faster, enable lower latency, increase battery life and handle more data.

# Coverage Need:

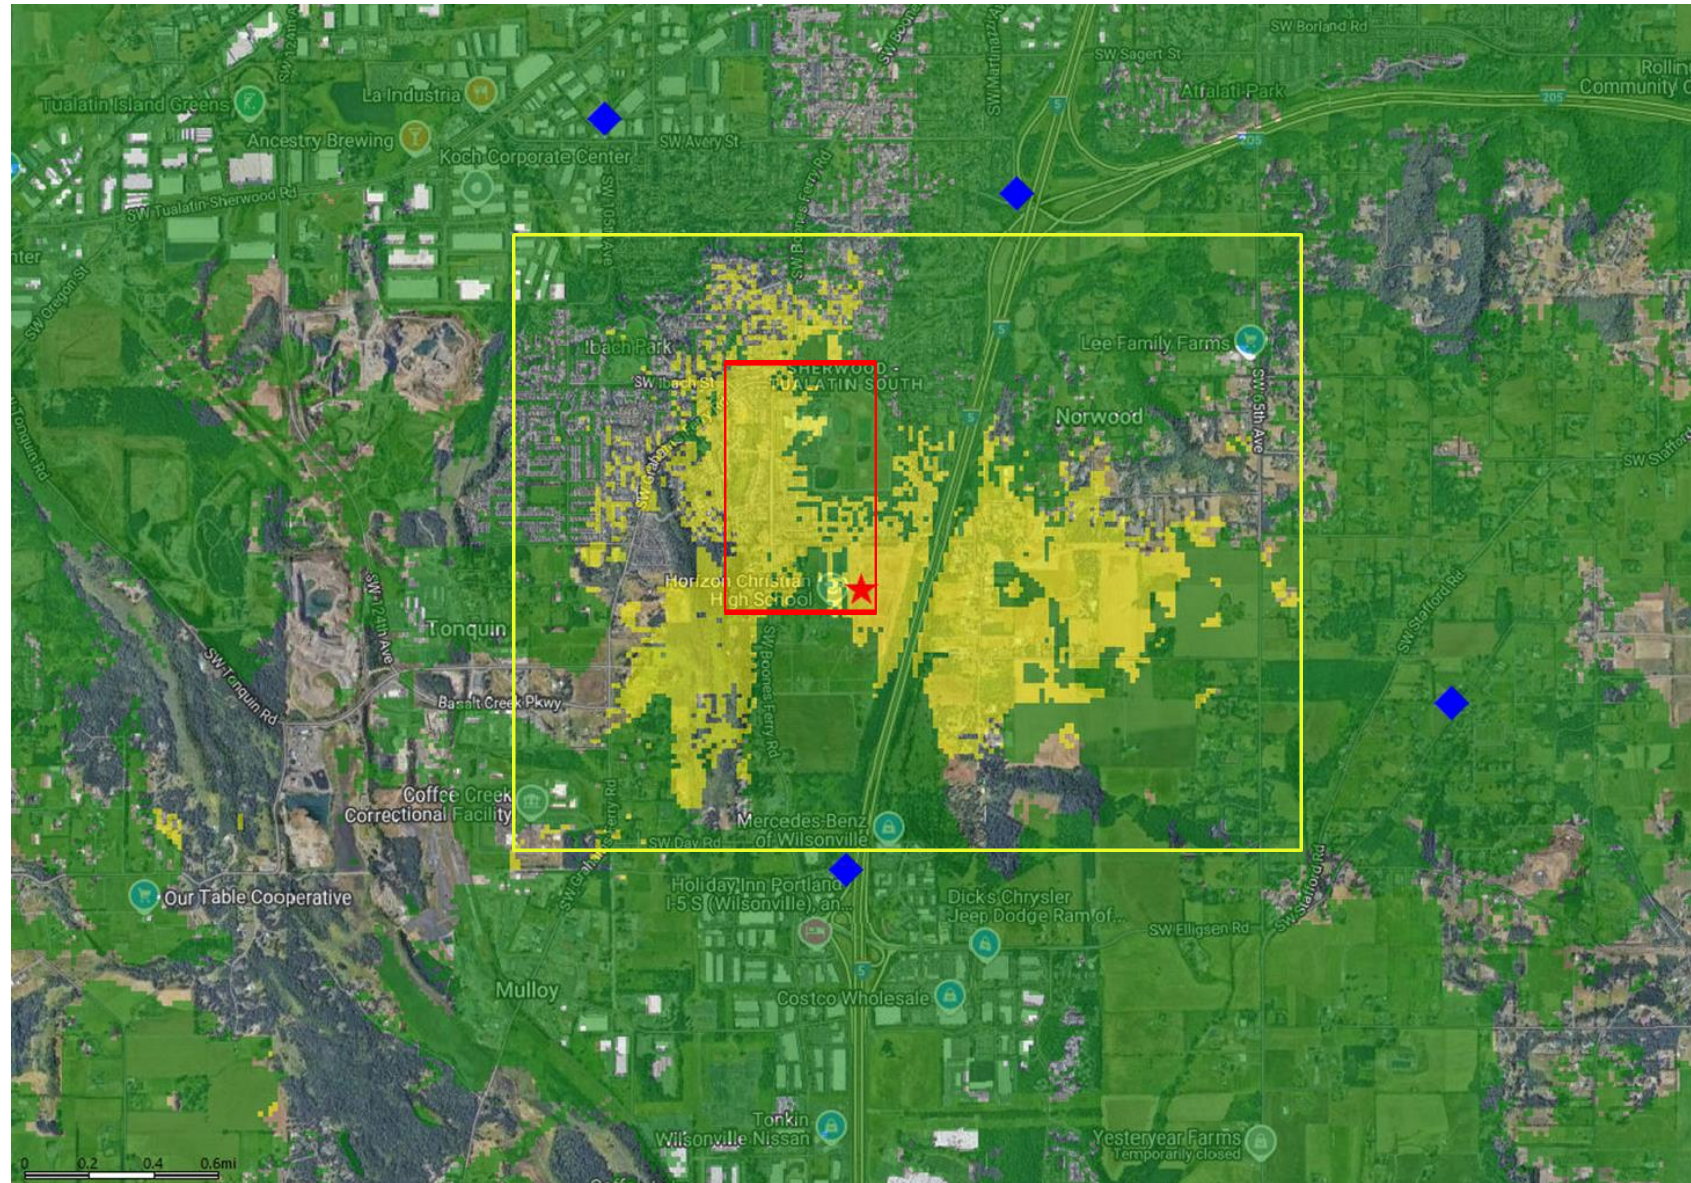

- ★ Proposed New AT&T Site
- ◆ Existing AT&T Site
- Current and Anticipated AT&T Coverage
- Proposed New AT&T Coverage
- Search Ring

# Expected Coverage From Proposed Facility:

- ★ Proposed New AT&T Site Location
- ◆ Existing AT&T Site Location
- ◆ Planned New AT&T Site Location
- Planned AT&T Smallcell Location
- Current and Anticipated AT&T Coverage
- Coverage Gain from New Proposed WCF

Search Ring

# Proposal:

- AT&T proposes to collocate onto an existing 110-foot tall monopole (extension of 18') with antennas, radios, GPS and other ancillary operating equipment.
- The pole is designed to allow for other carriers (lower) – collocation.
- The ground lease is 10'x 15' (150 SF) inside the existing compound and there will be a backup generator to be operated for emergency use only.
- The location for the project is on the existing monopole between the two water tanks (city-owned property).
- Access will be from SW Norwood Road– existing driveway.
- Project is compliant with rules and regulations.

Disclaimer: These photo-realistic simulations have been provided to aid in visualizing how the proposed wireless telecommunications facility shown herein would appear if constructed. While these renderings are not an exact science, they have been prepared diligently to accurately reflect dimensions, scale, depth, coloring.

# Radio Frequency (“RF”) Safety:

All AT&T sites are designed and built to comply with federal RF guidelines, which are set by the Federal Communications Commission (FCC).

Federal Communications Commission (FCC), the federal agency responsible for regulating wireless carriers' RF emissions, has adopted conservative, science-based RF exposure limits for carriers. These limits apply to all wireless carriers and technologies, including current 4G and new 5G services and devices.

The FCC's mandatory RF exposure limits were developed based on information from health and safety experts including, but not limited to, the U.S. Environmental Protection Agency (EPA), the Food and Drug Administration (FDA), the National Institute for Occupational Safety and Health (NIOSH), the Occupational Safety and Health Administration (OSHA), the National Council on Radiation Protection and Measurements (NCRPM), the American National Standards Institute (ANSI), and the Institute of Electrical and Electronics Engineers, Inc. (IEEE).

For more information: <https://www.fcc.gov/consumers/guides/human-exposure-radio-frequency-fields-guidelines-cellular-and-pcs-sites>

## Process Timeline:

- All of the comments received today will be included in a summary provided to attendees and staff.
- This is an Architectural Review Type II (staff approval).
- Public notification will occur throughout the process (i.e. posting of site, written correspondence, etc.)
- Estimated permit process is 2-3 months.
- Following approval, the construction timeline is expected to take 3-4 months.

**NEIGHBORHOOD MEETING – FOLLOW-UP NOTES**  
**CITY OF TUALATIN**  
**AT&T PD33 BOONES & IBACH WIRELESS FACILITY**

FEBRUARY 27, 2025

Greetings:

Thank you again for attending the informational neighborhood meeting on Saturday, February 22<sup>nd</sup> to discuss AT&T's proposed service improvements. We appreciate the questions and comments we received. The purpose of this letter is to provide responses to the questions that were posed by residents. In this instance, there were two questions:

**1. What is the timeline for permitting?**

***Response:** Again, the project requires architectural review (Type II) and is decided upon by staff. There are a few set timelines involved, including: determination of a complete application (30 days), Notice of Application with a 14-day comment period, staff decision (60 days), appeal 14 days. This, in total, is about 4 months. If the application, is submitted in March, a final decision would be in July. There is a building permit process which will take about 2-3 months. Thus, the projected construction could begin sometime in October (as we stated).*

**2. Will the planned facility generate any noise?**

***Response:** No substantial amount of noise will be generated from AT&T's equipment to adjoining properties. A noise study has been prepared which was given out at the meeting. In general, noise is limited to 70 dBA during daytime hours (7A to 10P). During nighttime (10P to 7A) the permissible sound level is decreased by 20 dBA, or 50 dBA.*

*As it applies to this project, the operating equipment will generate approximately 71 dBA at the point of operation. The actual noise heard dissipates further away by about 22 dBA 60 feet away (the closest residential property). Therefore, the actual noise generated to the property line is 49 dBA, which meets the city requirement day or night.*

*The backup generator (emergency use only) will generate about 65 dBA 23 feet away from the equipment. Again, noise will dissipate further away; thus, the predicted noise level is 57 dBA which meets the daylight noise requirement. Again, this is for emergency use only.*

Again, thank you for your attendance and please feel free to contact me with any questions or comments throughout the process by phone (206.227.7445) and/or email ([pkitzes@clinellc.com](mailto:pkitzes@clinellc.com)).

**ARCHITECTURAL REVIEW APPLICATION #AR25-0003  
CITIZEN INVOLVEMENT ORGANIZATION (CIO) STATEMENT**

AT&T PD33 BOONES & IBACH COLLOCATION FACILITY

**Property Address: 9000 SW Norwood Road, Tualatin, OR 97062 (Water Tank Site)**

**Assessor 's Parcel Number : R2154937**

**Date: March 26, 2025**

On behalf of New Cingular Wireless PCS (AT&T), Centerline Communications submitted an Architectural Review Application (#AR25-003) on March 17<sup>th</sup> and staff has requested additional information prior to deeming the submittal complete:

- Fees (The request for a check has been sent out)
- Neighborhood Mailing List: Enclosed

Also required is Citizen Involvement Organization (CIO) Statement as to whether any city-recognized involvement organizations were notified of this project per TDC 32.140(1)(h). As noted in the mailing list, approximately 550 residents and entities (1,000-foot radius from the project) were notified of the proposal. We did not specifically contact any CIOs given the high number of those contacted for the neighborhood meeting. All those immediately affected by the proposal have been notified of the project.

(It should be noted that of the 550 contacted, only two (2) showed up at the actual neighborhood meeting and we received one (1) email.

Thank you.

CENTERLINE COMMUNICATIONS
